Quality Policy

The company is a supplier of separation columns and accessories for chromatography as well as exclusive services for chemical analysis technology.

Quality management is a key component of our strategic corporate development. In the presentation of quality policy, we formulate our ambition to achieve the greatest possible benefit and a high degree of quality for our customers with the available resources under the given legal framework and economic aspects.

We feel obliged to meet legal requirements and customer requirements. We are also committed to continually improving our quality management system.

CEO
